Did you not hear me ? Only Lady Choi shall follow me !

How shameful of me ...
Such a display of so-called jealousy - !

Why .. are you not saying anything ?
I am prepared to be scolded.
Such a shameful display of jealousy !
That... coat...
Shameful !
Shameful !

Ah-, yes... I This coat -
Yes, this is Jeong Misu's.
It was becoming chilly, so I asked him to hand it over.
... Please rest well.
I did not want to catch a cold

It looked like ... he was pretty upset.
Were you alone with Jeong Misu, sire ?
Yes, I was.
Jeong Misu...
Do you have him in your mind?

꽉
Yes...

We are not here as friends.
I see...
We are here as a prince and -
a royal guard.
In the end...
It came to this...
I demand you to explain everything that has happened
from the moment you and the king left the group -

to the moment
he made his return.
I demand you to
tell me everything
in full detail.
I apologize -
But I have nothing
to report.

I am merely following my liege's direct order.
Sire - !
Keep your voice down.
It's just a light wound. It's not a big deal.

When I got hurt,
I thought -
If this wound was any deeper,
My fate would have been done for.
I wouldn't have died from the wound. Rather I would have eventually been killed for being a female.

truth I
to hide
If-
I... to hide
my wound...
And Misu ...
He ...

He found out !
This is why...
they claim the king is still juvenile.
Because he enjoys hide & seek.

Either way, the king has returned safe and sound.
That's all that matters in the end.
Looking at your stiff face,
I doubt I would get a clear answer from you. Too bad.
By the way, you are one of few who serve the king closely, so I have a question to ask.
The rumor, is it true ?
Ah, do not misunderstand. I am not placing any blame on you.

It's a very private issue, so I am not enjoying this.
It is regarding the king and the queen's mating nights.
I hear that they prepare two beds instead of one. I was wondering if you knew any truth to add.

I am sure it's just a gossip the maids made up.
But when there is fire, there is smoke.
If that gossip is indeed true, however, it is a big deal.
If he is not refusing to produce heirs,
That means he is refusing his queen.
Either way, no heir means ill news to a country.

I apologize, but I do not have the
intelligence to understand your statement.
May I leave?
Of course, that cannot be true.
How about the rumor that the king favors men over women ?

But if it is indeed true,
That will be a devastating blow to the whole country.
So, it concerns everyone, including yourself. You should look into this. Conveniently, tomorrow is their mating night.

You should check and see if they really bring in two beds.
쾅
Two beds...
Two .... beds !

Sir, the queen is requesting your presence.
I wanted to speak to the king.
But letting him rest today seemed to be only right.
Therefore, I summoned you instead although it is not a good etiquette.
Do you have ... anything to report to me ?

I was informed that you kept your silence in front of Lord Ja-Ul.
Yes, if it was his direct order, you are within your right to keep silence.
However, we are just worried about our lord.
What he did leaving the group with just only you.
That was very reckless.
And he returned after half a day.

If this happened in Han-Yang (Seoul) ....
It would have gotten much worse, given the current uneasy situation.
I understand that you wish to keep your silence.
But I want you to stop him from doing so next time if such an occasion comes again.
I am telling you this because -
He seems to have a great deal of trust in you.

As expected, both arrow and assassin have been silenced.
Now, I decipher this situation ?

...Lord Ja-Ul has changed guards.
I've also...
approved his decision.
You are no longer my royal guard anymore. You hold no official rank in Han-Yang anymore now.

What will you do to kill time while in Han-Yang ?
...Is your wound alright...

a question.
The wound itself wasn't serious but the weather was rather harsh on that day.
I was worried if you experienced any fever ...

끄윽
I asked you how you will spend your time in Han-Yang !!!

* In ancient Korea like this manwha has set itself in, there was no vocabulary for "love". "연모" (Yeon-mo) was used in original Korean text which doesn t exactly mean "love" but "love" is as close as it can get in its meaning Deep affection would be a better explanation but I sure am not gonna use that in this context.
I ...
* Love you.

That is ... the answer for the question you asked me on the other day.
Do you hove feelings for me ...
Whether I om a mon - or - o womon,
For who I om regordless my gender ?
Whether you are a man,
or a woman, it won't matter.

I lave yau regardless.

Can I ... believe that I have your answer ?
On that day ...

Can I take that as -
a yes to my confession ?
Will you ... answer me ?
Whatever happened ...
Whatever you saw ...
Whatever you found out ...
You must ...
Forget.
